

The program

1. A. N. Karapetyants, Editor-in-Chief of JMS (Series A): Interim results of Series A and development prospects.
2. The journal publisher Tatiana Golea: review of the journal for 2022 and current years, statistics, citation, indexing, distribution, development forecasts.
3. Perspective and progress of journal indexing.
4. Springer's capabilities in using artificial intelligence interface for translating scientific literature into English and editing and mechanisms of operation.
5. Open access publishing opportunities through Springer's agreements with countries and individual institutions.
6. Additional reports on possible Springer services, taking into account the interests and wishes of editorial board members.
7. Presentations by JMS editors and source managers.
8. Working meetings with the members of the Presidium of the Academy of Sciences of Armenia and participation of the Academy members in discussions within the framework of the parallel session of the Academy of Sciences of Armenia dedicated to the 80th anniversary of the Academy of Sciences.
9. A separate session for Series A editorial board members in a face-to-face format, where they will have an opportunity to raise issues of interest and initiate discussions. Participation of interested colleagues from editorial boards of sources is welcome!
10. Informal socializing and socio-cultural events.
