

AUGUST 24-25, 2020

OTHA ONLINE WORKSHOP 2020

on operator theory and harmonic analysis and their applications
MS TEAMS

SCHEDULE

24 August (Monday)

16:00-	
16:05	Opening ceremony
16:05-	
17:00	Miodrag Mateljevic (University of Belgrade, Serbia) <i>Dirichlet problem for harmonic maps and related topics</i> Video
17:05-	
18:00	Alexander Skubachevsky (Institute of Mathematics, RUDN University, Moscow, Russia) <i>Mixed boundary value problems for strongly elliptic differential-difference equations and their applications</i> Video
18:05-	
19:00	Alexander Bendikov (Wroclaw University, Poland) <i>On the spectrum of hierarchical Schroedinger-type operator (joint lecture with A. Grigor'yan and S. Molchanov)</i> Video
19:05-	
20:00	Vladimir Rabinovich (Instituto Politecnico Nacional, Mexico) <i>Parameter dependent differential operators on graphs and their applications</i> Video
20:05-	
21:00	Mark Malamud (RUDN University, Moscow, Russia) <i>Trace formulas for pairs of resolvent comparable m-dissipative operators and operator-Lipshitz functions</i> Video

25 August (Tuesday)

16:00-	Luigi D'Onofrio (Universita' Degli Studi Di Napoli "Parthenope", Italy)
16:55	<i>Atomic decompositions, two stars theorems, and distances for the Bourgain-Brezis-Mironescu space and other big spaces</i>
	<u>Video</u>
17:00-	Vagif Guliyev (Baku State University, Azerbaijan)
17:55	<i>Characterizations of generalized fractional maximal and integral operators in Orlicz and generalized Orlicz-Morrey spaces on Carnot groups</i>
	<u>Video</u>
18:00-	Yuri Gliklikh (Voronezh State University, Voronezh, Russia)
18:55	<i>On some applications of stochastic differential equations with mean derivatives</i>
	<u>Video</u>
19:00-	Anatolij Antonevich (Belarusian State University, Belarus)
19:55	<i>On extensions of mappings</i>
	<u>Video</u>
