13:30-14:00		Skubachevskii Alexander, *RUDN University, Russia*	Global weak solutions with compact supports of the Vlasov-Poisson system and plasma confinement
14:05-14:35		Avetisyan Zhirayr, *Ghent University, Belgium*	Polar decomposition in metric spaces
14:35-14:55	**COFEE BREAK**		
14:55-15:25		Garcia Pacheco Francisco Javier, *Cadiz University, Spain*	Geometric invariants
15:30-16:00		Karapetyants Mikhail, *Vienna University, Austria*	Nesterov type algorithm with double Tikhonov regularization
